INCREASING ACCESS TO CARE

UChicago Medicine is increasing access to care in Northwest Indiana and its surrounding regions:

- Based on a market assessment, UChicago Medicine found that about 15% of Northwest Indiana patients travel outside the region for medical care. Of that group, roughly 1 in 5 visit the health system's facilities in and around Chicago.
- UChicago Medicine Crown Point will offer advanced specialty care, including pediatric care from [UChicago Medicine Comer Children's Hospital](#) and cancer care from the [UChicago Medicine Comprehensive Cancer Center](#), in the following areas:
 - **For all ages:** cancer, digestive diseases, heart and vascular care, and neurosciences
 - **For adults:** obstetrics and gynecology (OB/GYN), pain management, and transplant
 - **For children:** allergy and immunology, endocrinology, general surgery, infectious diseases, orthopaedic surgery, otolaryngology (ENT), plastic surgery, pulmonary medicine, and rheumatology

A GROWING PRESENCE IN NORTHWEST INDIANA

UChicago Medicine Crown Point expands the health system's existing footprint in Northwest Indiana.

- UChicago Medicine has been operating for years in Northwest Indiana in [Merrillville](#), [Munster](#), and [Scherverville](#).
- UChicago Medicine acquired regional oncology centers from Michiana Hematology Oncology in September 2023.
 - An existing location in Crown Point is being moved into the new Crown Point facility.
 - [UChicago Medicine Cancer Care Center at Chesterton](#) and [UChicago Medicine Cancer Care Center at Valparaiso](#) will remain at their current locations.
